EDUCATION

University of Central Punjab

Faisalabad, Pakistan

Bachelor of Science in Computer Science | CGPA: 3.95 / 4.00

Sep 2023 – May 2027 (Expected)

- Relevant Coursework: Data Structures & Algorithms, Web Application Development, Artificial Intelligence, SQL & Database Systems, Big Data Analysis, Computer System Communications, Calculus

PROJECTS

SystemGuardian | *Python, Windows API, S.M.A.R.T., File I/O*

- Built a system maintenance app with Windows API for process monitoring, resource tracking, and a disk health checker using S.M.A.R.T. data analysis and predictive failure algorithms
- Developed a backup engine with file compression & scheduled automation, a battery monitor with power optimization, and a file defragmenter with performance benchmarking
- Authored full SRS documenting 44 functional requirements, use-case diagrams, and system architecture with a CLI featuring detailed reporting and structured logging

PantryMate - AI Recipe Generator | *React, TypeScript, Google Gemini API, Vite, Tailwind CSS*

- Engineered a tag-based recipe generation system allowing users to filter by cuisine, ingredients, and dietary preferences using the Google Gemini API
- Built a weekly meal plan generator that produces 7-day schedules aligned to user-defined calorie targets and macro distributions, validated before generation
- Authored full SRS documentation including functional requirements, user flow diagrams, and component architecture diagrams

OpsField - Job Management Platform | *React, TypeScript, Supabase*

- Built a dual-portal web platform for small service businesses with separate client and staff interfaces backed by Supabase (PostgreSQL)
- Implemented role-based access control with a relational schema covering bookings, messaging, job updates, and notifications
- Features include booking request submission, staff acceptance flow, real-time job status tracking, built-in client-staff messaging, and completion notifications

ACHIEVEMENTS

- Secured scholarship at University of Central Punjab based on academic results
- Secured second position overall in Intermediate results at Concordia College
- Placed top ten at the national level in the Maths Mastery Competition
- Certificate in Introduction to Tableau from SkillUp
- Certificate in Advanced Excel from SkillUp

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, SQL

Web & Frameworks: React, HTML, CSS, Tailwind CSS, WordPress

Tools & Platforms: Git, GitHub, Supabase, Vite, VS Code

AI & APIs: Google Gemini API, Prompt Engineering

Design: Adobe Photoshop, Adobe Illustrator, Affinity, Canva, CapCut

Concepts: REST APIs, Responsive Design, MVC Architecture, Technical Writing, SEO

INTERESTS

- **Technical:** Web Development, System Architecture, Data Analytics, UI/UX Design
- **Emerging Tech:** AI Applications, Prompt Engineering, Creative Coding, Digital Design
- **Personal:** Enjoying F1, Watching football, Enjoying gaming
